## SUMMARY

An exceptional documentary about the peace march to the Pentagon organized in October 1967 by American youth in opposition to the Vietnam war, in which several strands of American opinion were represented: pro-communist activists, apolitical but anti-war Americans, neo-Nazis, Republicans, conservatives ... This march by peace activists brought 100 000 people together, and was the first direct action to follow the American students protest at army recruiters on their campuses.
